

Engr 555: Field Testing & Instr. in Geotech. Engr.

School of Engineering

Principles, mechanisms, and interpretation of traditional and modern field testing techniques; principles and applications of geotechnical instrumentation to monitor and measure the behavior of structures; geotechnical measurement with the engineering point of view.

3 Credits

Prerequisites

- [C E 431: Soil Mechanics I](#)
- Prerequisite: Junior standing (60 hr).

Instruction Type(s)

- Lecture: Lecture for Engr 555

Subject Areas

- [Engineering, General](#)
- [Geotechnical and Geoenvironmental Engineering](#)
