

Phad 355: The Anthropology of Drugs

Pharmacy Administration

What is a drug? Is it different from a pharmaceutical? How? What separates therapeutic use of a drug from abuse? Where do these substances come from? How are they accessed? Transformed? How do we know something is effective? Does the development and use of a drug vary globally or perpetuate inequalities? This course is an anthropological exploration of such questions.

3 Credits

Prerequisites

- Pre-Requisite: 24 Earned Hours

Cross-listed Courses

- [Anth 355: The Anthropology of Drugs](#)
