

Prct 471: Advanced Topics in Cardiology Pharmacy Practice

This 2-hour elective course provides students with an in-depth review and expansion of concepts that were introduced in Phcy 502. Students will gain a broader knowledge and deeper understanding of the etiology, pathophysiology, clinical course, clinical manifestations, prevention and management of various cardiovascular disorders. This class is focused on application of knowledge to improve patient care. Learning techniques that will be utilized include lecture, discussion, formulation of a pharmacist's patient care process plan (PPCP) for patient cases, evaluation of primary literature, and student debates.

Z grade.

2 Credits

Prerequisites

- [Phcy 502: Integrated Systems: Cardiovascular](#)
- Pre-Requisite: 24 Earned Hours

Instruction Type(s)

- Lecture: Lecture for Prct 471

Subject Areas

- [Pharmacy \(PharmD - USA - PharmD, BS/BPharm - Canada\)](#)
