

Prct 473: Beyond Dispensing Pharmacy Practice

In this elective course, students engage in learning activities to develop clinical skills in patient-centered care, along with practice management strategies within the community pharmacy practice setting. Learners will apply knowledge from the foundational disciplines (e.g., basic and applied sciences and clinical sciences) to integrate the Pharmacists' Patient Care Process in community settings.

2 Credits

Prerequisites

- Pre-Requisite: 24 Earned Hours
