

## **BMS 651: Fundamentals of Pharmacognosy and Phytoc** **Biomolecular Sciences**

BMS 651 is an asynchronous online course designed to equip students with a comprehensive understanding of the field of pharmacognosy. Students will learn about the historical basis of pharmacognosy, including landmark events that have shaped its evolution. Throughout the course, students will gain a deeper understanding of the chemical space around dietary supplements and develop skills in analyzing and synthesizing reliable scientific literature. By the end of the course, students will be able to demonstrate their knowledge by authoring key monograph sections such as identity, and chemical composition for a dietary ingredient.
