

PH 685: Health Program Evaluation

Public Health

Graduate students will gain practical knowledge and skills in designing and implementing evaluations for public health programs. Students will learn the entire program evaluation process, starting with community assessment and program development as precursors to the participatory model for evaluation. Framing program evaluation in the context of community-based participatory research, this course will utilize case studies to teach best practices and end with students designing their own complete program evaluation.

3 Credits

Instruction Type(s)

- Lecture: Lecture for PH 685
- Lecture: Hybrid Lecture for PH 685
- Lecture: Online Program for PH 685
- Lecture: Web-based Lecture for PH 685
