Minor - Business Analytics & Info System Description

The BAIS minor provides undergraduate students knowledge and skills in business analytics, desktop- and web-based programming that enhances their career opportunities in an increasingly technology-driven world.

Course Requirements

A minor in BAIS requires Bus/Econ 230, BAIS 309 or GB 310, and 12 hours of BAIS courses at the 300-level or above.

Other Academic Requirements

Students are required to have a laptop that runs the Windows operating system. (A Mac laptop with dual boot capability would suffice.)
