

## C E 103: Introduction to Civil Engineering Lab

An introductory course into professional practice focus areas within civil engineering: structural, geotechnical, transportation and construction management, environmental and water resources with an emphasis on hands-on activities. Laboratory and field activities related to the four major areas of civil engineering. Mathematical, computer skills include algebra, geometry, trigonometry, vectors, unit conversion, and spreadsheets, and technical writing.

1 Credit

## **Instruction Type(s)**

• Lab: Laboratory for C E 103

## **Subject Areas**

• Civil Engineering, General

## **Related Areas**

- Civil Engineering, Other
- Geotechnical and Geoenvironmental Engineering
- Structural Engineering
- Transportation and Highway Engineering
- Water Resources Engineering
