

C E 301: Environmental Engineering Lab Civil Engineering

Experiments in environmental systems; hands-on experience in experimental design and data acquisition and analysis; evaluation, synthesis, and graphical presentation of results and report preparation.

1 Credit

One-way corequisites

• C E 371: Intro to Environmental Engineering

Instruction Type(s)

• Lab: Laboratory for C E 301

Subject Areas

• Water Resources Engineering

Related Areas

- Civil Engineering, General
- Civil Engineering, Other
- Geotechnical and Geoenvironmental Engineering
- Structural Engineering
- Transportation and Highway Engineering
