

# C E 456: Civil Engineering Design II Civil Engineering

Final course in capstone design sequence. Group experience in the design of a significant civil engineering project; data collection and quantitative analysis of economic and safety factors; qualitative evaluation based on reliability, aesthetics, ethics, social/environmental impact. Formal presentation and evaluation of projects to a jury of practicing professionals and electronic submission of a formal report.

3 Credits

### **Prerequisites**

<u>C E 455: Civil Engineering Design I</u>
 Pre-Requisite: 24 Earned Hours

# **Instruction Type(s)**

• Lecture/Lab: Lecture/Lab for C E 456

## **Subject Areas**

• Civil Engineering, General

#### **Related Areas**

- Civil Engineering, Other
- Geotechnical and Geoenvironmental Engineering
- Structural Engineering
- Transportation and Highway Engineering
- Water Resources Engineering
