

Astr 101: Descriptive Astronomy

Physics & Astronomy

This course is a one-semester introduction to astronomy. Topics include the motion of objects in the night sky, orbital motion, observational techniques, light, the solar system, stars, and galaxies. The course is primarily lecture-based and does not include a lab, but some observations through the telescope are included. A student may not receive credit for both Astr 101 and Astr 103, nor for both Astr 101 and Astr 104.

3 Credits

Instruction Type(s)

- Lecture: Lecture for Astr 101
- Lecture: Web-based Lecture for Astr 101
