B.S.Ch.E. in Chemical Engineering

Overview

Degree Requirements

Description
The B.S. in chemical engineering provides the student with a fundamental knowledge of chemical engineering science and prepares graduates for a variety of careers in industry and government, or for advanced study in engineering, business, or professional school.

Minimum Total Credit Hours: 128

Goals/Mission Statement

Program Educational Objectives
Graduates from the Department of Chemical Engineering of the University of Mississippi will be:
1. Globally competitive in the professional world;
2. Prepared for leadership and success in their chosen career or in continued education;
3. Equipped with flexible problem-solving skills to address complex professional and societal issues.

Student Outcomes
In accordance with ABET accreditation requirements, BSChE students at the University of Mississippi should demonstrate the attainment of the following student outcomes:
(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in life-long learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

Course Requirements
Specific requirements for the standard option in chemical engineering are as follows:
- Writ 101 and 102;
- Math 261, 262, 263, 264, and 353;
- Chem 105, 106, 115, 116, 221, and 225;
- Phys 211, 212, 221, 222;
- an advanced science (defined below);
- Engr 310, 313, 321, and 322;
- an engineering elective (defined below);
- 12 hours of technical electives of 300 or higher course number from engineering, science, or mathematics;
- 3 hours of fine arts
- 6 hours of humanities from the same department
- 6 hours of social science from the same department
- 3 additional hours of humanities, social science, or a general education course as defined by the School of Engineering with the exception that speech and math content courses may not be used to satisfy any of these required 18 credits.

Any of the following will satisfy the advanced science requirement:
- Engr 340
- Engr 540
- Ch E 543
- Ch E 545
- Ch E 547
- Geol 314
- Geol 415
- Geol 450
- G E 503
- Chem 314
- Chem 331

Chemical Engineering | Fall 2019-20
134 Anderson Hall, University, MS 38677
http://www.olemiss.edu/depts/chemical_eng/

Chem 332
Chem 334
Chem 373
Chem 401
Chem 471
Chem 473
Phys 315
Phys 317
Phys 318
Phys 319
Phys 321
Phys 401
Phys 402
Bisc 301
Bisc 306
Bisc 318
Bisc 320
Bisc 327
Bisc 335

Any of the following will satisfy the engineering elective requirement:
- Engr 309
- Engr 330
- Engr 340
- Engr 360
- Engr 573
- C E 471
- C E 472
- Manf 455
- M E 534

The following alternative courses may satisfy course requirements as specified:
- Alternatives to Ch E 101: Ch E 103 and Ch E 104, or Engr 100
- Alternative to Engr 313: The combination of Manf 251 and Manf 252
- Alternative to Ch E 452: The combination of Manf 451 and Manf 452
- Alternatives for 300-level technical electives:
  - Chem 222
  - Manf 253
  - Manf 254
  - the combination of Bisc 160, 161, 162, and 163.

In the case of the Bisc 160-163 series, the student must take all 8 credits to fulfill the requirement for one 3-credit technical elective. A maximum of 3 credits of Ch E 330 may be used to satisfy one of the technical elective requirements.

**Emphasizes in Chemical Engineering**

As alternative to the standard or pre-med options in chemical engineering, a student may choose to obtain a B.S. in Chemical Engineering with one or more of the following four emphases: biotechnology, environmental, manufacturing (in collaboration with the Center for Manufacturing Excellence), and materials. The same general education and course requirements (defined above) apply to all emphases in chemical engineering. Taking specific advanced chemistry and elective courses satisfy specific emphasis requirements.

**Other Academic Requirements**

Students in the Department of Chemical Engineering are encouraged to take the Fundamentals of Engineering examination prior to awarding of the baccalaureate degree.

**Specializations**

- **Emphasis - Biotechnology**
- **Emphasis - Environmental**
- **Emphasis - Manufacturing**
- **Emphasis - Materials**
- **Pre-Med Option**
- **Standard Option**
