Csci 259: Programming in C++
Computer & Information Science

Study of programming in the language C++, covering character processing; use of pointers with strings, arrays and functions; data structures; bitwise operators.

3 Credits

**Prerequisites**
- Csci 111 or Csci 251

**Instruction Type(s)**
- Lecture: Lecture for Csci 259
- Lecture: Hybrid Lecture for Csci 259

**Subject Areas**
- Computer Science
