Csci 356: Data Structures in Python

Abstract data types for stack, queue, various lists, trees and graphs will be studied. Built-in data structures such as lists, dictionaries, and tuples will be used extensively.

Prerequisites
- Pre-Requisite: 24 Earned Hours
- Pre-requisite Csci 256 or Csci 112 minimum C-

Instruction Type(s)
- Lecture: Lecture for Csci 356
- Lecture: Web-based Lecture for Csci 356

Subject Areas
- Computer Science
