Engr 661: Computer Networks II  
School of Engineering  
Continued analysis of loosely coupled computer communication, constraints on intercomputer communication, communication protocols, and network services. LAN data link protocols, transport services, and other high-level network functions are examined in detail.

3 Credits  
Prerequisites  
- Csci 561: Computer Networks (Minimum grade: C)

Instruction Type(s)  
- Lecture: Lecture for Engr 661

Subject Areas  
- Engineering, General  
- Computer Engineering, General  
- Computer Science
