**Engs 610: Telecommunication Network Engineering**

**School of Engineering**

Team design project developed in cooperation with industry. Students accomplish the design and document the results in a report and in an oral presentation.

3 Credits

**Prerequisites**

- Engr 653: Computer Structures (Minimum grade: C)
- Engs 603: Analysis of Algorithms (Minimum grade: C)
- Engs 606: Computer Networks (Minimum grade: C)

**Instruction Type(s)**

- Lecture: Lecture for Engs 610

**Subject Areas**

- Laser and Optical Engineering
- Computer Science
