Geol 613: Instrumental and Analytical Procedure
Geology & Geological Engineering
Modern techniques and methods for the application of various types of analytical instrumentation in geoscience research. (May be repeated for credit).
1 - 3 Credits

Instruction Type(s)
• Indiv Based: Individual Based Study for Geol 613

Subject Areas
• Geology/Earth Science, General

Related Areas
• Geochemistry
• Geochemistry and Petrology
• Geological and Earth Sciences/Geosciences, Other
• Hydrology and Water Resources Science
• Paleontology
