

C E 516: Bridge Engineering

Civil Engineering

Bridge types, functions, construction features; AASHTO design vehicle loading; LRFD limit states design of superstructure elements; short span steel and pre-stressed concrete girder deck systems; introduction to design of substructure elements including bearings, piers, trestles

3 Credits

Prerequisites

- Prerequisites: either C_E 412 or C_E 413 OR Prerequisite: graduate standing

Instruction Type(s)

- Lecture: Lecture for C E 516

Subject Areas

- [Structural Engineering](#)

Related Areas

- [Civil Engineering, General](#)
- [Civil Engineering, Other](#)
- [Geotechnical and Geoenvironmental Engineering](#)
- [Transportation and Highway Engineering](#)
- [Water Resources Engineering](#)
