

## **Bisc 305: Science in Practice**

### **Biology**

This course will expose students to important practical aspects of science as it pertains: to the craft of science, the communication of science, and the types of careers that are possible with a STEM degree. This course will involve didactic sessions with the instructor on practical skills related to "craft, communication, and careers" but will be driven largely by discussions with guest presenters from different sectors in which there are opportunities for those with STEM expertise to make an impact within government, industry/the private sector, academia, and non-profit organizations.

3 Credits

### **Prerequisites**

- [Bisc 160: Biological Sciences I](#) (Minimum grade: C)
- [Bisc 161: Biological Sciences I Laboratory](#) (Minimum grade: C)
- [Bisc 162: Biological Sciences II](#) (Minimum grade: C)
- [Bisc 163: Biological Sciences II Laboratory](#) (Minimum grade: C)

### **Instruction Type(s)**

- Lecture: Lecture for Bisc 305

### **Subject Areas**

- [Biology/Biological Sciences, General](#)

### **Related Areas**

- [Biomedical Sciences, General](#)
