

## Chem 554: Analytical Environmental Chemistry

### Chemistry & Biochemistry

This course will focus on the analytical chemistry of pollutants and instrumental techniques used to identify and quantify them.

3 Credits

### Prerequisites

- Pre-requisite: Chem 469 with minimum grade of C or Graduate standing.

### Instruction Type(s)

- Lecture: Lecture for Chem 554

### Subject Areas

- [Environmental Chemistry](#)
- [Analytical Chemistry](#)

### Related Areas

- [Chemical Physics](#)
- [Chemistry, General](#)
- [Forensic Chemistry](#)
- [Inorganic Chemistry](#)
- [Organic Chemistry](#)
- [Physical Chemistry](#)
- [Theoretical Chemistry](#)
