

## **BMS 663: Formulation & Manufacturing of Cannabis**

### **Biomolecular Sciences**

BMS 663 is an asynchronous online course in which students will learn about the formulation and manufacturing of cannabis products. We will briefly highlight the cGMPs that govern this area; however, most of the course will be spent working through manufacturing from start to finish including areas such as research and development, sourcing, formulation from conception, sustainability, and testing. The culmination of this course will equip students with the ability to formulate a cannabis product from concept to market ready while maintaining cGMP compliant records along the way.

3 Credits

### **Instruction Type(s)**

- Lecture: Web-based Lecture for BMS 663

### **Subject Areas**

- [Clinical and Industrial Drug Development \(MS, PhD\)](#)

### **Related Areas**

- [Industrial and Physical Pharmacy and Cosmetic Sciences \(MS, PhD\)](#)
- [Medicinal and Pharmaceutical Chemistry](#)
- [Natural Products Chemistry and Pharmacognosy \(MS, PhD\)](#)
- [Pharmaceutical Marketing and Management](#)
- [Pharmaceutical Sciences](#)
- [Pharmaceutics and Drug Design \(MS, PhD\)](#)
- [Pharmacoeconomics/Pharmaceutical Economics \(MS, PhD\)](#)
- [Pharmacy \(PharmD - USA - PharmD, BS/BPharm - Canada\)](#)
- [Pharmacy Administration and Pharmacy Policy and Regulatory Affairs \(MS, PhD\)](#)
- [Pharmacy, Pharmaceutical Sciences, and Administration, Other](#)
