

Phad 630: Intro to Implementation Science

This course provides an introduction to dissemination and implementation (D&I) science (i.e., translational research in health). In this course, students will have the opportunity to explore the following topics: the importance and language of D&I science; designs, methods, and measures; differences and similarities across clinical, public health, and policy settings; selected tools for D&I research and practice; and future issues.

3 Credits

Instruction Type(s)

Lecture: Lecture for Phad 630
