Bisc 162: Biological Sciences II
Biology
Continuation of Bisc 160. A comprehensive treatment of the major principles of modern biology, including a general consideration of embryonic development, anatomy and physiology of plant and animals, principles of ecology and a survey of biodiversity. Intended primarily for biology majors and minors, and other science majors, including pre-professional biomedical and pharmacy students.
Applies to the science requirement of the core curriculum.
3 Credits
Prerequisites
- Bisc 160: Biological Sciences I (Minimum grade: C)
- Bisc 161: Biological Sciences I Laboratory (Minimum grade: C)
Corequisites
- Bisc 163: Biological Sciences II Laboratory
Instruction Type(s)
- Lecture: Lecture for Bisc 162
Subject Areas
- Biology/Biological Sciences, General
Related Areas
- Biomedical Sciences, General
